## Instant Gallery and Competitions

You are again invited to bring three pieces of your work to put in the Instant Gallery. We will photograph every piece there and have DVDs of the pictures for sale later in the weekend. The demonstrators will have their own gallery. The World of Woodturners (WoW) swap will have a separate table. The Instant Gallery is a competition with two classes: Traditional - a wooden item which can be used – and Artistic - a wooden item which has been created with the intention that it will be a decorative item. More information on these is in the paper you get with your registration receipt. There will be another table for auction items as we will again be running an auction to benefit St John, particularly St John Youth who will be helping throughout the symposium. You may gift an item to this auction.
